EPIC CLIMB

Epilepsy Durham Region

October 6, 2014

On behalf of the Government of Ontario, I am delighted to extend warm greetings to everyone participating in Epilepsy Durham Region's Epic Climb of the Grand Canyon.

I recognize the many challenges that people living with epilepsy and other seizure disorders face — including physical and professional limitations, as well as societal stigma. I also recognize that people living with these conditions are individuals with their own unique strengths, talents and abilities.

This exciting event embodies our collective commitment to the well being of people with epilepsy and seizure disorders. Simply put, we believe that, people with these conditions deserve to live full and satisfying lives.

I want to commend Epilepsy Durham Region for hosting this memorable event. I was pleased to know that the funds raised from this event will go toward Lora's Legacy Fund, which helps Durham families cover the cost of medications and travel to hospital. I thank everyone who is supporting and participating in this climb for investing your time, energy and resources in this worthy endeavour.

Our government looks forward to continuing to work with our partners in health care, the nonprofit sector and the community to ensure that people living with epilepsy and other seizure disorders participate fully in our society.

*To everyone, thank you for helping to ensure the success of this event.
Please accept my best wishes.*
